The cool golden winds herald autumn. Beijing Clubhouse works consistently to create innovative and exclusive membership experience.

Reviewing some of our distinctly classy events, the “Blooming in Summer” afternoon tea salon fostered an elegant and relaxed atmosphere for Members to get closer to each other, sharing a stylish lifestyle. Cloisonné art appreciation introduced Members to intricate cultural heritage of craft artistry and excellence. The “Wine Circle” savoured the flavours of fine wines from several wineries in a convivial enjoyment of dinners and fellowship. We continue to promote the physical and mental well-being of children and parent-child bonding with fun games and workshops, including Happy Children’s Day, Messy Jam with Family, and Parent-Child Golf Tournament. The phase one of Our Learning House reading programme also ended successfully after the certificate presentation ceremony. In the “Journey with Horses Series” in the Greater Bay Area, we led Members’ children to learn equestrian knowledge in depth. Finally, the guided tour of Hong Kong International Sale allowed more Members to experience how to become a horse connoisseur.

Every active exploration aims to provide Members with more intimate services and unique experiences. Beijing Clubhouse will continue to carry out more activities around Members’ value propositions of “Lifestyle of Champions” and bring more extraordinary choices to your life.
